

Residential Water Usage Charges

Water charges for residential customers are made up of:

- A **Base Water Service Charge** for operating the water system.
- A **Water Usage Charge** is applied to the volume of water used by an individual customer. Usage is measured in kilolitres (kL).

The base water service charge shown below is for a full year. Residential customers receive a bill from Lancelin South four (4) times a year for their Residential Water Usage and Service Charge.

Residential Water Usage / Charges		
Base Water Service Charge	\$220.00	per annum (\$55 per quarter)
Water Usage Charge – Potable (drinking)	\$2.00	per kL water used
Water Usage Charge – Non-potable (irrigation)	\$1.45	per kL water used

Residential Sewerage Charges

Fees for residential the sewerage service consists of an annual fixed Base Service Charge only. No usage charges apply to the sewerage system.

This is an annual charge to the owner of the property. Residential customers receive a bill from Lancelin South four (4) times a year for their Residential Sewerage Charge.
